

Home Loss Prevention Checklist

Water

- Does your home have a sump pump? If yes, does it have a separate power source?
- Do you have contents or valuables stored on the floor?
- Do you have a proper floor drain that is accessible if needed?
- Is there a back up valve installed in your drainage system?

Fire

- Do you have working smoke alarms? Have they been checked lately?
- Do you have easy access to a fire extinguisher?
- Has your woodstove or fireplace been cleaned or inspected recently?
- Have you checked the cords to major appliances lately?
- Has your heating system been cleaned or inspected lately?

Storms

- Do you have an emergency plan if a storm hits?
- Do you have an emergency preparedness kit with appropriate supplies for 72 hours?
- Do you know the local emergency numbers?
- Have you moved all items away from windows and doors?
- Do you have access to flashlights and candles?

Break Ins

- Do you have a list of items currently in your home?
- Are all keys accounted for?
- Is your home alarm in good working order?
- Are all areas of access to your home well lit?

MAX Mission & Vision

We strive to live out our mission and vision of wholeness and hope that you do not experience a loss. But, if you do, MAX will be there for you to restore you back to whole. We encourage you to use this checklist to prevent a loss and we thank you for being partners with us in our vision of creating and sustaining wholeness.
